The Strain-19 (S-19) vaccine is used for prevention of which of the following diseases of cattle ?

Options :

1. Leptospirosis
2. Listeriosis
3. Brucellosis
4. All of the above

Question Number : 51 Question Id : 46466251 Question Type : MCQ Option Shuffling : No

The Strain-19 (S-19) vaccine is used for prevention of which of the following diseases of cattle ?

Options :

1. Leptospirosis
2. Listeriosis
3. Brucellosis
4. All of the above

Question Number : 52 Question Id : 46466252 Question Type : MCQ Option Shuffling : No

The causative agent of Brooder's pneumonia in birds is \_\_\_\_\_

Options :

1. Candida albicans
2. Histoplasma capsulatum
3. Mycoplasma pneumoniae
4. Aspergillus fumigatus

Question Number : 52 Question Id : 46466252 Question Type : MCQ Option Shuffling : No

The causative agent of Brooder's pneumonia in birds is \_\_\_\_\_

Options :

1. Candida albicans
2. Histoplasma capsulatum
3. Mycoplasma pneumoniae
4. Aspergillus fumigatus

Question Number : 53 Question Id : 46466253 Question Type : MCQ Option Shuffling : No

Fungal toxin responsible for oestrogenic effects, occasionally ovarian atrophy, still birth with splay leg incoordination conditions are associated with toxicity of \_\_\_\_\_.

- i.  $T_2$  toxin
- ii. Ergot alkaloids
- iii. Zeralenone
- iv. Rubratoxin

Options :

1. Only iii is correct
2. i and ii are correct
3. All above options are correct
4. None of these

**Question Number : 53 Question Id : 46466253 Question Type : MCQ Option Shuffling : No**

Fungal toxin responsible for oestrogenic effects, occasionally ovarian atrophy, still birth with splay leg incoordination conditions are associated with toxicity of \_\_\_\_\_.

- i.  $T_2$  toxin
- ii. Ergot alkaloids
- iii. Zeralenone
- iv. Rubratoxin

**Options :**

- 1. Only iii is correct
- 2. i and ii are correct
- 3. All above options are correct
- 4. None of these

**Question Number : 54 Question Id : 46466254 Question Type : MCQ Option Shuffling : No**

What are the properties of replacement fluids that closely resemble ECF ?

**Options :**

- 1. Isotonic, High in sodium, Low in potassium
- 2. Hypertonic, High in sodium and potassium
- 3. Isotonic, High in potassium, Low in sodium
- 4. Isotonic, High in potassium and chloride

**Question Number : 54 Question Id : 46466254 Question Type : MCQ Option Shuffling : No**

What are the properties of replacement fluids that closely resemble ECF ?

**Options :**

- 1. Isotonic, High in sodium, Low in potassium
- 2. Hypertonic, High in sodium and potassium
- 3. Isotonic, High in potassium, Low in sodium
- 4. Isotonic, High in potassium and chloride

**Question Number : 55 Question Id : 46466255 Question Type : MCQ Option Shuffling : No**

Which of the following statements about benzimidazole anthelmintics is true ?

**Options :**

1. Benzimidazoles are formulated as solutions for oral administration only.
2. Most of the benzimidazoles have ovicidal activity in worms.
3. Most of the benzimidazoles are excreted unchanged in mammalian species.
4. Single dose treatment with benzimidazoles is more effective in dogs than in cattle.

**Question Number : 55 Question Id : 46466255 Question Type : MCQ Option Shuffling : No**

Which of the following statements about benzimidazole anthelmintics is true ?

**Options :**

1. Benzimidazoles are formulated as solutions for oral administration only.
2. Most of the benzimidazoles have ovicidal activity in worms.
3. Most of the benzimidazoles are excreted unchanged in mammalian species.
4. Single dose treatment with benzimidazoles is more effective in dogs than in cattle.

**Question Number : 56 Question Id : 46466256 Question Type : MCQ Option Shuffling : No**

G-protein coupled receptors are also known as \_\_\_\_\_.

**Options :**

1. Ionotropic receptors
2. Metabotropic receptors
3. Kinase-linked receptors
4. Nicotinic receptors

Question Number : 56 Question Id : 46466256 Question Type : MCQ Option Shuffling : No

G-protein coupled receptors are also known as \_\_\_\_\_.

Options :

1. Ionotropic receptors
2. Metabotropic receptors
3. Kinase-linked receptors
4. Nicotinic receptors

Question Number : 57 Question Id : 46466257 Question Type : MCQ Option Shuffling : No

Use of specific antidote is intended to \_\_\_\_\_

- i. Prevent the absorption of toxicants by complex formation
- ii. Prevent binding of toxicant to a target site
- iii. Prevent distribution of toxicant to target site
- iv. To provide symptomatic relief

Which of the statement above is/are correct ?

Options :

1. ii and iii
2. i, ii and iii
3. i and iii
4. Only iii

Question Number : 57 Question Id : 46466257 Question Type : MCQ Option Shuffling : No

Use of specific antidote is intended to \_\_\_\_\_

- i. Prevent the absorption of toxicants by complex formation
- ii. Prevent binding of toxicant to a target site
- iii. Prevent distribution of toxicant to target site
- iv. To provide symptomatic relief

Which of the statement above is/are correct ?

Options :

1. ii and iii
2. i, ii and iii
3. i and iii
4. Only iii

**Question Number : 58 Question Id : 46466258 Question Type : MCQ Option Shuffling : No**

Which of the statements given below is/are incorrect ?

- a. Toned milk should contain minimum 5 per cent fat and 10 per cent SNF throughout India.
- b. Double toned milk should contain minimum 1.5 per cent fat and 9.0 per cent SNF throughout India.
- c. Recombined milk should contain a minimum of 3 per cent fat and 8.5 per cent SNF throughout India.
- d. The standardized milk for liquid consumption should contain minimum 4.5 per cent fat and 8.5 per cent SNF throughout India.

**Options :**

- 1. Only a
- 2. Only a and b
- 3. Only a, b and c
- 4. Only a, b and d

**Question Number : 58 Question Id : 46466258 Question Type : MCQ Option Shuffling : No**

Which of the statements given below is/are incorrect ?

- a. Toned milk should contain minimum 5 per cent fat and 10 per cent SNF throughout India.
- b. Double toned milk should contain minimum 1.5 per cent fat and 9.0 per cent SNF throughout India.
- c. Recombined milk should contain a minimum of 3 per cent fat and 8.5 per cent SNF throughout India.
- d. The standardized milk for liquid consumption should contain minimum 4.5 per cent fat and 8.5 per cent SNF throughout India.

**Options :**

- 1. Only a
- 2. Only a and b
- 3. Only a, b and c
- 4. Only a, b and d

**Question Number : 59 Question Id : 46466259 Question Type : MCQ Option Shuffling : No**

What is the minimum shelf life of canned meat products stored at ambient temperature ?

**Options :**

1. 3 months
2. 6 months
3. 1 year
4. 2 years

**Question Number : 59 Question Id : 46466259 Question Type : MCQ Option Shuffling : No**

What is the minimum shelf life of canned meat products stored at ambient temperature ?

**Options :**

1. 3 months
2. 6 months
3. 1 year
4. 2 years

**Question Number : 60 Question Id : 46466260 Question Type : MCQ Option Shuffling : No**

The characteristic pink colour to cured meat products is due to \_\_\_\_\_.

**Options :**

1. Nitromyoglobin
2. Nitric oxide myoglobin
3. Nitric oxide
4. Nitroso haemochromogen

**Question Number : 60 Question Id : 46466260 Question Type : MCQ Option Shuffling : No**

The characteristic pink colour to cured meat products is due to \_\_\_\_\_.

**Options :**

1. Nitromyoglobin
2. Nitric oxide myoglobin
3. Nitric oxide
4. Nitroso haemochromogen

**Question Number : 61 Question Id : 46466261 Question Type : MCQ Option Shuffling : No**

The WHO has a section of veterinary public health in its division of communicable diseases located in \_\_\_\_\_.

**Options :**

1. Rome
2. New York
3. Geneva
4. Paris

**Question Number : 61 Question Id : 46466261 Question Type : MCQ Option Shuffling : No**

The WHO has a section of veterinary public health in its division of communicable diseases located in \_\_\_\_\_.

**Options :**

1. Rome
2. New York
3. Geneva
4. Paris

**Question Number : 62 Question Id : 46466262 Question Type : MCQ Option Shuffling : No**

Methicillin-resistant staphylococcus aureus has been classified as \_\_\_\_\_ pathogen by WHO in its global action plan on Antimicrobial Resistance.

**Options :**

1. Priority 1 : Critical
2. Priority 2 : High
3. Priority 3 : Medium
4. Not significant risk

**Question Number : 62 Question Id : 46466262 Question Type : MCQ Option Shuffling : No**

Methicillin-resistant staphylococcus aureus has been classified as \_\_\_\_\_ pathogen by WHO in its global action plan on Antimicrobial Resistance.

**Options :**

1. Priority 1 : Critical
2. Priority 2 : High
3. Priority 3 : Medium
4. Not significant risk

**Question Number : 63 Question Id : 46466263 Question Type : MCQ Option Shuffling : No**

Natural casings are prepared from \_\_\_\_\_

**Options :**

1. Mucosa
2. Submucosa
3. Serosa
4. Muscular layer

**Question Number : 63 Question Id : 46466263 Question Type : MCQ Option Shuffling : No**

Natural casings are prepared from \_\_\_\_\_

**Options :**

1. Mucosa
2. Submucosa
3. Serusa
4. Muscular layer

**Question Number : 64 Question Id : 46466264 Question Type : MCQ Option Shuffling : No**

The Water (Prevention and Control of Pollution) Act was passed by the parliament in \_\_\_\_\_.

**Options :**

1. 1962
2. 1964
3. 1947
4. 1974

**Question Number : 64 Question Id : 46466264 Question Type : MCQ Option Shuffling : No**

The Water (Prevention and Control of Pollution) Act was passed by the parliament in \_\_\_\_\_.

**Options :**

1. 1962
2. 1964
3. 1947
4. 1974

**Question Number : 65 Question Id : 46466265 Question Type : MCQ Option Shuffling : No**

The phenomenon of excessive shortening that occurs in muscles during glycolysis when the temperature of carcass is maintained in the range of 0 – 10 degree celcius is called \_\_\_\_\_

- a. Thaw Rigor
- b. Freezing shortening
- c. Cold shortening
- d. Ageing

**Options :**

- 1. Only a
- 2. Only a and b
- 3. Only c
- 4. a, b and d

**Question Number : 65 Question Id : 46466265 Question Type : MCQ Option Shuffling : No**

The phenomenon of excessive shortening that occurs in muscles during glycolysis when the temperature of carcass is maintained in the range of 0 – 10 degree celcius is called \_\_\_\_\_

- a. Thaw Rigor
- b. Freezing shortening
- c. Cold shortening
- d. Ageing

**Options :**

- 1. Only a
- 2. Only a and b
- 3. Only c
- 4. a, b and d

**Question Number : 66 Question Id : 46466266 Question Type : MCQ Option Shuffling : No**

Which of the following glands pass their secretory product through the cell wall without any noticeable damage to the cell membrane ?

**Options :**

1. Apocrine
2. Merocrine
3. Endocrine
4. Holocrine

**Question Number : 66 Question Id : 46466266 Question Type : MCQ Option Shuffling : No**

Which of the following glands pass their secretory product through the cell wall without any noticeable damage to the cell membrane ?

**Options :**

1. Apocrine
2. Merocrine
3. Endocrine
4. Holocrine

**Question Number : 67 Question Id : 46466267 Question Type : MCQ Option Shuffling : No**

Complete circular rings are present in the trachea of \_\_\_\_\_. (species)

**Options :**

1. Ox
2. Horse
3. Dog
4. Fowl

Question Number : 67 Question Id : 46466267 Question Type : MCQ Option Shuffling : No

Complete circular rings are present in the trachea of \_\_\_\_\_. (species)

Options :

1. Ox
2. Horse
3. Dog
4. Fowl

Question Number : 68 Question Id : 46466268 Question Type : MCQ Option Shuffling : No

Which of the following muscle/s forms the muscular floor of the abdomen ?

- a. External abdominal oblique muscle
- b. Internal abdominal oblique muscle
- c. Rectus abdominis muscle
- d. Transversus abdominis muscle

Options :

1. Only c and d
2. Only a and b
3. Only c
4. Only d

Question Number : 68 Question Id : 46466268 Question Type : MCQ Option Shuffling : No

Which of the following muscle/s forms the muscular floor of the abdomen ?

- a. External abdominal oblique muscle
- b. Internal abdominal oblique muscle
- c. Rectus abdominis muscle
- d. Transversus abdominis muscle

Options :

1. Only c and d
2. Only a and b
3. Only c
4. Only d

Question Number : 69 Question Id : 46466269 Question Type : MCQ Option Shuffling : No

Which of the following statement is not true ?

- a. Unipolar neurons have one process
- b. Bipolar neurons have one dendrite and two axons
- c. Multipolar neurons have single axon
- d. The nervous system of adult mammals do not have true unipolar neurons

Options :

- 1. d
- 2. b
- 3. a
- 4. c

Question Number : 69 Question Id : 46466269 Question Type : MCQ Option Shuffling : No

Which of the following statement is not true ?

- a. Unipolar neurons have one process
- b. Bipolar neurons have one dendrite and two axons
- c. Multipolar neurons have single axon
- d. The nervous system of adult mammals do not have true unipolar neurons

Options :

- 1. d
- 2. b
- 3. a
- 4. c

Question Number : 70 Question Id : 46466270 Question Type : MCQ Option Shuffling : No

Which of the following statements is/are not true ?

- a. Rumen, reticulum and omasum are collectively known as proventriculus
- b. Reticulum is cranial most compartment of the fore stomach
- c. Rumen and reticulum are often collectively called as ruminoreticulum
- d. The rumen is subdivided externally into compartments by muscular pillars

Options :

- 1. a only
- 2. a and b only
- 3. b and c only
- 4. d only

Question Number : 70 Question Id : 46466270 Question Type : MCQ Option Shuffling : No

Which of the following statements is/are not true ?

- a. Rumen, reticulum and omasum are collectively known as proventriculus
- b. Reticulum is cranial most compartment of the fore stomach
- c. Rumen and reticulum are often collectively called as ruminoreticulum
- d. The rumen is subdivided externally into compartments by muscular pillars

Options :

- 1. a only
- 2. a and b only
- 3. b and c only
- 4. d only

**Question Number : 71 Question Id : 46466271 Question Type : MCQ Option Shuffling : No**

Low levels of which electrolyte will lead to cardiac arrhythmia \_\_\_\_\_.

**Options :**

1. Sodium
2. Potassium
3. Chloride
4. Phosphorus

**Question Number : 71 Question Id : 46466271 Question Type : MCQ Option Shuffling : No**

Low levels of which electrolyte will lead to cardiac arrhythmia \_\_\_\_\_.

**Options :**

1. Sodium
2. Potassium
3. Chloride
4. Phosphorus

**Question Number : 72 Question Id : 46466272 Question Type : MCQ Option Shuffling : No**

Which among the following is the major precursor for the gluconeogenesis in ruminant ?

**Options :**

1. Lactate
2. Propionate
3. Acetate
4. Butyrate

Question Number : 72 Question Id : 46466272 Question Type : MCQ Option Shuffling : No

Which among the following is the major precursor for the gluconeogenesis in ruminant ?

Options :

1. Lactate
2. Propionate
3. Acetate
4. Butyrate

Question Number : 73 Question Id : 46466273 Question Type : MCQ Option Shuffling : No

Which of the following is not a ketone body ?

Options :

1. Propionate
2. Acetone
3. Acetoacetate
4.  $\beta$ -Hydroxybutyrate

Question Number : 73 Question Id : 46466273 Question Type : MCQ Option Shuffling : No

Which of the following is not a ketone body ?

Options :

1. Propionate
2. Acetone
3. Acetoacetate
4.  $\beta$ -Hydroxybutyrate

**Question Number : 74 Question Id : 46466274 Question Type : MCQ Option Shuffling : No**

Which one of the following is the heart of all metabolic pathway ?

**Options :**

1. Hexose monophosphate (HMP)
2. Embden Meyerhof parnas (EMP)
3. Gluconeogenesis
4. Tricarboxylic acid cycle

**Question Number : 74 Question Id : 46466274 Question Type : MCQ Option Shuffling : No**

Which one of the following is the heart of all metabolic pathway ?

**Options :**

1. Hexose monophosphate (HMP)
2. Embden Meyerhof parnas (EMP)
3. Gluconeogenesis
4. Tricarboxylic acid cycle

**Question Number : 75 Question Id : 46466275 Question Type : MCQ Option Shuffling : No**

What is the glomerular filtration rate (GFR) ml/min or renal clearance in dog in which inulin is given and following observations were noted ?

Vol. of urine output → 1 ml/min

Conc. of inulin in urine → 130 mg/ml

Conc. of inulin in plasma → 2 mg/ml

**Options :**

1. 65 ml/min
2. 130 ml/min
3. 120 ml/min
4. 60 ml/min

**Question Number : 75 Question Id : 46466275 Question Type : MCQ Option Shuffling : No**

What is the glomerular filtration rate (GFR) ml/min or renal clearance in dog in which inulin is given and following observations were noted ?

Vol. of urine output → 1 ml/min

Conc. of inulin in urine → 130 mg/ml

Conc. of inulin in plasma → 2 mg/ml

**Options :**

1. 65 ml/min
2. 130 ml/min
3. 120 ml/min
4. 60 ml/min

**Question Number : 76 Question Id : 46466276 Question Type : MCQ Option Shuffling : No**

\_\_\_\_\_ is a direct, face-to-face contact by the extension worker with the farmer or his family at his home or farm for specific purpose.

**Options :**

1. Adaptive Trial
2. Flag method
3. Office Call
4. Farm and Home visit

**Question Number : 76 Question Id : 46466276 Question Type : MCQ Option Shuffling : No**

\_\_\_\_\_ is a direct, face-to-face contact by the extension worker with the farmer or his family at his home or farm for specific purpose.

**Options :**

1. Adaptive Trial

3. Only c
4. Only c and d

**Question Number : 79 Question Id : 46466279 Question Type : MCQ Option Shuffling : No**

\_\_\_\_\_ system was introduced in India in 1974 with World Bank assistance.

**Options :**

1. Trainers Training
2. Training and visit
3. Pluralistic extension
4. Agri-clinics and Agri-business

**Question Number : 79 Question Id : 46466279 Question Type : MCQ Option Shuffling : No**

\_\_\_\_\_ system was introduced in India in 1974 with World Bank assistance.

**Options :**

1. Trainers Training
2. Training and visit
3. Pluralistic extension
4. Agri-clinics and Agri-business

**Question Number : 80 Question Id : 46466280 Question Type : MCQ Option Shuffling : No**

\_\_\_\_\_ was established by Indian Council of Agricultural Research (ICAR) in 1996 at Bhubaneswar.

**Options :**

1. Extension Education Institute
2. National Research Centre for Non-Descript Cattle
3. National Research Centre for Women in Agriculture
4. Central Research Institute on Animal Fodder

**Question Number : 80 Question Id : 46466280 Question Type : MCQ Option Shuffling : No**

\_\_\_\_\_ was established by Indian Council of Agricultural Research (ICAR) in 1996 at Bhubaneswar.

**Options :**

1. Extension Education Institute
2. National Research Centre for Non-Descript Cattle
3. National Research Centre for Women in Agriculture
4. Central Research Institute on Animal Fodder

**Question Number : 81 Question Id : 46466281 Question Type : MCQ Option Shuffling : No**

Match the following.

- |         |                                          |
|---------|------------------------------------------|
| a. PRA  | I. Strategic Research and Extension Plan |
| b. KVK  | II. Single Window Approach               |
| c. ATMA | III. Non-Uniform Syllabus                |
| d. ATIC | IV. Optimal Ignorance                    |

**Options :**

1. a – I    b – IV    c – III    d – II
2. a – IV    b – III    c – I    d – II
3. a – IV    b – III    c – II    d – I
4. a – I    b – IV    c – II    d – III

Question Number : 81 Question Id : 46466281 Question Type : MCQ Option Shuffling : No

Match the following.

- |         |                                          |
|---------|------------------------------------------|
| a. PRA  | I. Strategic Research and Extension Plan |
| b. KVK  | II. Single Window Approach               |
| c. ATMA | III. Non-Uniform Syllabus                |
| d. ATIC | IV. Optimal Ignorance                    |

Options :

1. a – I      b – IV      c – III      d – II
2. a – IV      b – III      c – I      d – II
3. a – IV      b – III      c – II      d – I
4. a – I      b – IV      c – II      d – III

Question Number : 82 Question Id : 46466282 Question Type : MCQ Option Shuffling : No

The management practice of maintaining good health condition before breeding of sheep and goats, providing extra ration about 15 to 30 days before breeding season means \_\_\_\_\_.

Options :

1. Steaming up
2. Boosting
3. Flushing
4. Finishing

Question Number : 82 Question Id : 46466282 Question Type : MCQ Option Shuffling : No

The management practice of maintaining good health condition before breeding of sheep and goats, providing extra ration about 15 to 30 days before breeding season means \_\_\_\_\_.

Options :

1. Steaming up
2. Boosting
3. Flushing
4. Finishing

**Question Number : 83 Question Id : 46466283 Question Type : MCQ Option Shuffling : No**

CARI-meat line, CARI-egg line and CARI-white egg shell line are different varieties developed by Central Avian Research Institute, Izatnagar, India are related to the following \_\_\_\_\_.

**Options :**

1. Fowl
2. Quail
3. Geese
4. Turkey

**Question Number : 83 Question Id : 46466283 Question Type : MCQ Option Shuffling : No**

CARI-meat line, CARI-egg line and CARI-white egg shell line are different varieties developed by Central Avian Research Institute, Izatnagar, India are related to the following \_\_\_\_\_.

**Options :**

1. Fowl
2. Quail
3. Geese
4. Turkey

**Question Number : 84 Question Id : 46466284 Question Type : MCQ Option Shuffling : No**

Name the species described below :

- a. mobile upper lips.
- b. very prehensile tongues.
- c. have fastidious eating habits.
- d. accept a wide variety of feed.

**Options :**

1. Pig
2. Cattle
3. Goat
4. Sheep

**Question Number : 84 Question Id : 46466284 Question Type : MCQ Option Shuffling : No**

Name the species described below :

- a. mobile upper lips.
- b. very prehensile tongues.
- c. have fastidious eating habits.
- d. accept a wide variety of feed.

**Options :**

- 1. Pig
- 2. Cattle
- 3. Goat
- 4. Sheep

**Question Number : 85 Question Id : 46466285 Question Type : MCQ Option Shuffling : No**

Recently which equine breed in Maharashtra has been registered by ICAR-NBAGR ?

**Options :**

- 1. Godatiri
- 2. Purnathadi
- 3. Bhimthadi
- 4. Marathwadi

**Question Number : 85 Question Id : 46466285 Question Type : MCQ Option Shuffling : No**

Recently which equine breed in Maharashtra has been registered by ICAR-NBAGR ?

**Options :**

- 1. Godatiri
- 2. Purnathadi
- 3. Bhimthadi
- 4. Marathwadi

**Question Number : 86 Question Id : 46466286 Question Type : MCQ Option Shuffling : No**

The environmental thermal stress reduces feed intake and feed efficiency in bovines because the demands for energy increased to activate thermolytic systems like \_\_\_\_\_.

- a. increase in blood circulation rate.
- b. increase in respiratory activity.
- c. increase in action of sweat glands.
- d. increase in metabolic rate.

Which of the following is/are correct ?

**Options :**

- 1. Only a
- 2. Only b, c and d
- 3. Only b
- 4. a, b, c and d

**Question Number : 86 Question Id : 46466286 Question Type : MCQ Option Shuffling : No**

The environmental thermal stress reduces feed intake and feed efficiency in bovines because the demands for energy increased to activate thermolytic systems like \_\_\_\_\_.

- a. increase in blood circulation rate.
- b. increase in respiratory activity.
- c. increase in action of sweat glands.
- d. increase in metabolic rate.

Which of the following is/are correct ?

**Options :**

- 1. Only a
- 2. Only b, c and d
- 3. Only b
- 4. a, b, c and d

**Question Number : 87 Question Id : 46466287 Question Type : MCQ Option Shuffling : No**

Which of the following is synthetic cattle breed of India ?

**Options :**

1. Vrindavani
2. Kathani
3. Sahiwal
4. Punganur

**Question Number : 87 Question Id : 46466287 Question Type : MCQ Option Shuffling : No**

Which of the following is synthetic cattle breed of India ?

**Options :**

1. Vrindavani
2. Kathani
3. Sahiwal
4. Punganur

**Question Number : 88 Question Id : 46466288 Question Type : MCQ Option Shuffling : No**

Consider the following statements regarding water intake of cow :

- A. Water intake of cow is 3-4 kg for every kg dry matter intake.
- B. Milking cows require additional amount of water to the tune of 4-5 kg of water for each kg of milk produced.

Which of the above statement is/are correct ?

**Options :**

1. Only A
2. Only B
3. Both A and B
4. Neither A nor B

Question Number : 88 Question Id : 46466288 Question Type : MCQ Option Shuffling : No

Consider the following statements regarding water intake of cow :

- A. Water intake of cow is 3-4 kg for every kg dry matter intake.
- B. Milking cows require additional amount of water to the tune of 4-5 kg of water for each kg of milk produced.

Which of the above statement is/are correct ?

Options :

- 1. Only A
- 2. Only B
- 3. Both A and B
- 4. Neither A nor B

Question Number : 89 Question Id : 46466289 Question Type : MCQ Option Shuffling : No

Match the following epistasis condition with modified dihybrid ratio.

- |                                  |                |
|----------------------------------|----------------|
| a. Recessive epistasis           | i. 12 : 3 : 1  |
| b. Dominant epistasis            | ii. 15 : 1     |
| c. Duplicate recessive epistasis | iii. 9 : 3 : 4 |
| d. Duplicate dominant epistasis  | iv. 9 : 7      |

Options :

- 1. a – i      b – iii      c – iv      d – ii
- 2. a – iii      b – i      c – iv      d – ii
- 3. a – i      b – iii      c – ii      d – iv
- 4. a – iii      b – i      c – ii      d – iv

Question Number : 89 Question Id : 46466289 Question Type : MCQ Option Shuffling : No

Match the following epistasis condition with modified dihybrid ratio.

- |                                  |                |
|----------------------------------|----------------|
| a. Recessive epistasis           | i. 12 : 3 : 1  |
| b. Dominant epistasis            | ii. 15 : 1     |
| c. Duplicate recessive epistasis | iii. 9 : 3 : 4 |
| d. Duplicate dominant epistasis  | iv. 9 : 7      |

Options :

1. a – i      b – iii      c – iv      d – ii
2. a – iii      b – i      c – iv      d – ii
3. a – i      b – iii      c – ii      d – iv
4. a – iii      b – i      c – ii      d – iv

Question Number : 90 Question Id : 46466290 Question Type : MCQ Option Shuffling : No

The ratio of response to selection to the selection differential is the \_\_\_\_\_

Options :

1. Intensity of selection
2. Heritability in broad sense
3. Realized heritability
4. Heritability in narrow sense

Question Number : 90 Question Id : 46466290 Question Type : MCQ Option Shuffling : No

The ratio of response to selection to the selection differential is the \_\_\_\_\_

Options :

1. Intensity of selection
2. Heritability in broad sense
3. Realized heritability
4. Heritability in narrow sense

Question Number : 91 Question Id : 46466291 Question Type : MCQ Option Shuffling : No

Which animal is known as ship of the high hills ?

Options :

1. Camel
2. Mithun
3. Yak
4. Goat

Question Number : 91 Question Id : 46466291 Question Type : MCQ Option Shuffling : No

Which animal is known as ship of the high hills ?

Options :

1. Camel
2. Mithun
3. Yak
4. Goat

Question Number : 92 Question Id : 46466292 Question Type : MCQ Option Shuffling : No

Which of the following are the causes of genetic correlation ?

- A. Heterosis
- B. Pleiotropy
- C. Dominance
- D. Linkage between genes

Options :

1. A only
2. B only
3. B and C only
4. B and D only

Question Number : 92 Question Id : 46466292 Question Type : MCQ Option Shuffling : No

Which of the following are the causes of genetic correlation ?

- A. Heterosis
- B. Pleiotropy
- C. Dominance
- D. Linkage between genes

Options :

- 1. A only
- 2. B only
- 3. B and C only
- 4. B and D only

Question Number : 93 Question Id : 46466293 Question Type : MCQ Option Shuffling : No

As per livestock policy of Maharashtra – 2010, in order to obtain self-sufficiency in milk production, it is aimed to achieve a level of \_\_\_\_\_ % in respect of genetically improved buffaloes by end of year 2017 and to further improve it by \_\_\_\_\_ % by end of year 2025.

Options :

- 1. 50% and 75%
- 2. 60% and 80%
- 3. 65% and 85%
- 4. 75% and 95%

**Question Number : 93 Question Id : 46466293 Question Type : MCQ Option Shuffling : No**

As per livestock policy of Maharashtra – 2010, in order to obtain self-sufficiency in milk production, it is aimed to achieve a level of \_\_\_\_\_ % in respect of genetically improved buffaloes by end of year 2017 and to further improve it by \_\_\_\_\_ % by end of year 2025.

**Options :**

1. 50% and 75%
2. 60% and 80%
3. 65% and 85%
4. 75% and 95%

**Question Number : 94 Question Id : 46466294 Question Type : MCQ Option Shuffling : No**

Match the pairs.

| Species   | Chromosome number ( $2^n$ ) |
|-----------|-----------------------------|
| a. Horse  | i. 38                       |
| b. Cat    | ii. 60                      |
| c. Sheep  | iii. 54                     |
| d. Cattle | iv. 64                      |

**Options :**

1. a – i      b – iv      c – iii      d – ii
2. a – iv      b – iii      c – ii      d – i
3. a – iv      b – ii      c – iii      d – i
4. a – iv      b – i      c – iii      d – ii

Question Number : 94 Question Id : 46466294 Question Type : MCQ Option Shuffling : No

Match the pairs.

| Species   | Chromosome number ( $2^n$ ) |
|-----------|-----------------------------|
| a. Horse  | i. 38                       |
| b. Cat    | ii. 60                      |
| c. Sheep  | iii. 54                     |
| d. Cattle | iv. 64                      |

Options :

1. a – i      b – iv      c – iii      d – ii
2. a – iv      b – iii      c – ii      d – i
3. a – iv      b – ii      c – iii      d – i
4. a – iv      b – i      c – iii      d – ii

Question Number : 95 Question Id : 46466295 Question Type : MCQ Option Shuffling : No

Match the following.

|                                                    |                  |
|----------------------------------------------------|------------------|
| a. NRC standard                                    | i. NPN substance |
| b. ARC standard                                    | ii. Lignin       |
| c. Biuret                                          | iii. USA         |
| d. Natural indicator used in digestibility studies | iv. UK           |

Options :

1. a – iii      b – iv      c – i      d – ii
2. a – iv      b – iii      c – ii      d – i
3. a – iii      b – iv      c – ii      d – i
4. a – iv      b – iii      c – i      d – ii

Question Number : 95 Question Id : 46466295 Question Type : MCQ Option Shuffling : No

Match the following.

- |                                                    |                  |
|----------------------------------------------------|------------------|
| a. NRC standard                                    | i. NPN substance |
| b. ARC standard                                    | ii. Lignin       |
| c. Biuret                                          | iii. USA         |
| d. Natural indicator used in digestibility studies | iv. UK           |

Options :

1. a – iii    b – iv    c – i    d – ii
2. a – iv    b – iii    c – ii    d – i
3. a – iii    b – iv    c – ii    d – i
4. a – iv    b – iii    c – i    d – ii

Question Number : 96 Question Id : 46466296 Question Type : MCQ Option Shuffling : No

Colostrum be fed to the neonatal calves at the rate of \_\_\_\_\_.

Options :

1.  $1/5^{\text{th}}$  of body weight
2.  $1/10^{\text{th}}$  of body weight
3.  $1/15^{\text{th}}$  of body weight
4.  $1/20^{\text{th}}$  of body weight

Question Number : 96 Question Id : 46466296 Question Type : MCQ Option Shuffling : No

Colostrum be fed to the neonatal calves at the rate of \_\_\_\_\_.

Options :

1.  $1/5^{\text{th}}$  of body weight
2.  $1/10^{\text{th}}$  of body weight
3.  $1/15^{\text{th}}$  of body weight
4.  $1/20^{\text{th}}$  of body weight

**Question Number : 97 Question Id : 46466297 Question Type : MCQ Option Shuffling : No**

Following treatment/treatments have been developed to protect the protein from rumen degradation without affecting its digestibility at the intestinal level, –

- I. Heat treatment
- II. Formaldehyde treatment
- III. Coumarin treatment
- IV. Tannic acid treatment

Which of the treatment/treatments given above is/are correct ?

**Options :**

- 1. Only I
- 2. Only II, III and IV
- 3. Only I, II and IV
- 4. Only I, II and III

**Question Number : 97 Question Id : 46466297 Question Type : MCQ Option Shuffling : No**

Following treatment/treatments have been developed to protect the protein from rumen degradation without affecting its digestibility at the intestinal level, –

- I. Heat treatment
- II. Formaldehyde treatment
- III. Coumarin treatment
- IV. Tannic acid treatment

Which of the treatment/treatments given above is/are correct ?

**Options :**

- 1. Only I
- 2. Only II, III and IV
- 3. Only I, II and IV
- 4. Only I, II and III

**Question Number : 98 Question Id : 46466298 Question Type : MCQ Option Shuffling : No**

The term “Flieg Index” is a commonly used method for evaluation of quality of \_\_\_\_\_.

**Options :**

1. Molasses
2. Protein
3. Hay
4. Silage

**Question Number : 98 Question Id : 46466298 Question Type : MCQ Option Shuffling : No**

The term “Flieg Index” is a commonly used method for evaluation of quality of \_\_\_\_\_.

**Options :**

1. Molasses
2. Protein
3. Hay
4. Silage

**Question Number : 99 Question Id : 46466299 Question Type : MCQ Option Shuffling : No**

Which of the following is not an example of commonly used prebiotic feed additive in the companion animal feed industry ?

**Options :**

1. Mannan oligosaccharides
2. Inulin
3. Yeast
4. Fructo oligosaccharides

**Question Number : 99 Question Id : 46466299 Question Type : MCQ Option Shuffling : No**

Which of the following is not an example of commonly used prebiotic feed additive in the companion animal feed industry ?

**Options :**

1. Mannan oligosaccharides
2. Inulin
3. Yeast
4. Fructo oligosaccharides

**Question Number : 100 Question Id : 464662100 Question Type : MCQ Option Shuffling : No**

Very good quality silage possesses following criteria,

- I. free from butyric acid
- II. Ammoniacal nitrogen level 20% and above of the total nitrogen
- III. pH range of 3.5 – 4.2

Which of the statement/statements given above is/are correct ?

**Options :**

1. Only I
2. Only I and II
3. Only I and III
4. I, II and III

**Question Number : 100 Question Id : 464662100 Question Type : MCQ Option Shuffling : No**

Very good quality silage possesses following criteria,

- I. free from butyric acid
